4 Read the text and answer the questions.

Greenhouse gases are important to keep our planet at the suitable temperature for life. One hundred years ago, the Earth was getting a little warmer, and the atmosphere was changing a little. Scientists think that people are causing climate change- a change to the normal weather of the Earth over a long period of time. We produce too many greenhouse gases through factories, transportation, building things, and livestock farming.

The greenhouse gases now keep more of the sun's heat inside the Earth, and stop this heat from going back to the space. So the Earth's temperature goes up.

A. Choose the correct answer from a , b, c or d.

Test 1

Listening text (1)

Water is the most important of all natural resources because all living things need it to stay alive. We use it to drink, to give to our animals, and to grow plants. We also use it for cleaning, for clean energy, and for transporting people and goods.

Listening text (2)

The sun provides energy for plants to grow. Plants and trees are called producers. Animals are called consumers. Primary consumers eat plants. Secondary consumers eat small animals and insects.

Test 2

Listening text (1)

Hi, I'm Dalia. I'm good at playing football and making cakes. I'm bad at playing handball. Aser is my brother. He's good at playing tennis and he's bad at helping me in the kitchen! My sister's name is Salma. She's good at doing math. She's bad at tidying her room!

Listening text (2)

Eco-tourism is an exciting idea. It looks after the environment and helps local people. Eco-tourists don't like to travel by plane because of the pollution that planes cause. They stay in small, local hotels or pay to stay in people's houses.

Test 3

Listening text (1)

The Nile Valley is the area of land on the banks of the Nile River. It is very good for growing crops like wheat, dates, and beans. Many people say that the Nile Valley is like a lotus flower - the river and the river banks are the stem of the flower, and the Nile Delta is the flower.

Listening text (2)

Mangoes grow in Egypt. We can make a lot of drinks and dishes with it. We can make delicious mango juice or cocktail juice. We can also make a fruit salad and a mango cake.

Test 4

Listening text (1)

It doesn't often rain in Cairo - there's only about 25 mm of rain every year. It's very little when you look at London: London has about 600 mm per year. Now you can see why the Nile is so important for everyone in Egypt. It brings the water from the south.

Listening text (2)

Other natural resources are minerals, and these include gold, silver, tin, copper, lead, and zinc. We use gold and silver to make beautiful jewelry. We use the other minerals to make things like cell phones, pipes in our houses, cookers and fridges in our kitchens, computers, and cars.

Test 5

Listening text (1)

The Nile Delta is in Lower Egypt. About 20 kilometers north of Cairo, the Nile River spreads out into two branches. These two branches flow toward the Mediterranean Sea. The Nile Delta is the fertile soil between the two branches of the Nile. It stretches from Alexandria to Port Said and it looks like a triangle.

Listening text (2)

If you like history, there is lots in Taba. There's Nawamis, a village of round, very old buildings. They are fascinating! Eco-tourists in Taba can enjoy diving, hiking, and camping. They can stay in camps and eco-lodges. You can find everything in Taba for a great holiday!

Test 6

Listening text (1)

Everything in the natural world is connected. An ecosystem is a place where animals, plants, and other living things live together. Animals and plants need each other to live. They also need suitable conditions. Animals eat plants, insects, and other animals to survive. They need food, water, and shelter. And they need the weather to be at the right temperature. Plants need sunlight and water to survive.

Listening text (2)

The following morning, the shoemaker and his wife were amazed to see two beautiful pairs of shoes in the workshop. "We must find out who is making these shoes," said the shoemaker's wife. "Let's hide tonight and see who is helping us."

Dina: What's your favorite food, Farida?

Farida: That's easy! It's chocolate.

Dina: Mmm... I love chocolate too. But it isn't healthy, is it?

Farida: I think it's OK to eat a little. But yes, it is unhealthy if you eat a lot.

Dina : What's your favorite healthy food?

Farida: Oh, I like chicken and I like fish. But my favorite is mango. We have a mango tree in the garden.
